

Take an active part at SEMICON Europa "SCIENCE PARK" and be exposed to 12.000 show-participants!

Research and development is one of Europe's strengths. World leading ideas, patents and processes would not be possible without the tremendous influence of several institutes in Europe. SEMICON Europa 2008 will focus on this track in a special way.

In a move to promote the global advancement of R&D, SEMI is adding the "SCIENCE PARK" to its line-up of exhibits and will provide research institutions and start-up companies with a platform for introducing new products and services to the semiconductor market.

A dedicated area in hall 3 has been reserved, in the spotlight will be a **new hybrid card** developed by the Fraunhofer IISB.

The "SCIENCE PARK" is supported by:

- Fraunhofer
- IMEC
- EFDS
- CEA / Léli

In addition to the possibility of exhibiting on the show floor we integrate "SCIENCE PARK" sessions into the Technology Arena.

The "SCIENCE PARK" session is seminar-style presentations, designed to provide exhibitors with an additional platform to engage and share product developments with an international audience.

All "SCIENCE PARK" exhibitors have the opportunity to become part of the program and strengthen their presence on the market with their products and services on themes linked to hot topics in the sector and during the show.

Exposure

Your company name and company logo will be pre-announced and published in the following SEMICON Europa materials:

- SEMICON Europa Visitor Brochure (if confirmed before 13 June)
- SEMICON Europa Event Directory (if confirmed before 22 August)
- Show Daily (if confirmed before 22 August)
- SEMICON Europa website

Reservation

To reserve your exhibition space, email Stephan Raithel at sraithel@semi.org the application form, and your company logo in high resolution. A schedule and floor plan will be sent mid-June to all exhibitors to confirm their booth space.

International collaboration between research organizations and corporations is crucial, a must be at SEMICON Europa

"The fields of research and development are the key drivers of the European industry. Science keeps Europe in a world-leading position! Let's move forward together."

Heinz Kundert,
President,
SEMI Europe

To be completed by 30 June 2008
