

# Saranpal Rai “Sunny”

Program Director

Global Semiconductor Safety Services, GS<sup>3</sup>  
Semiconductor Group of “Intertek”

## BIOGRAPHY

Sunny Rai, is the Program Director for Global Semiconductor Safety Services (GS<sup>3</sup>), the Semiconductor Division of Intertek Testing Services (Intertek), world’s largest products and commodities testing organization. In his present responsibilities, Sunny helps the Semiconductor, FPD and similar technologies, equipment manufacturers and users establish product safety and regulatory compliance programs.

Mr. Rai has performed several hundred SEMI S2 equipment reviews since 1992 and countless regulatory compliance & product safety evaluations in his 20 years as a product safety professional. His thorough knowledge of the regulatory environment and his hands on experience with equipment suppliers and end-users of all sizes brings unique knowledge and expertise to the SEMI S2 process.

Mr. Rai has also been involved in conducting a number of Design for Safety Seminars and SEMI Technical Education Programs to meet SEMI S2, CE Marking and US Field Labelling/Listing requirements in several countries around the world. Mr. Rai holds a B.S. degree in Physics from the University of Delhi, India and a degree in Electronic Engineering Technology, from San Francisco, California. Mr. Rai is the co-chair for the International Regulatory Compliance Committee and a Task Force Leader for the Flat Panel Display Industry, North American EH&S Liaison Committee and the High Pressure Equipment Safety Task Force.
